This 8-day course provides comprehensive instruction for botanical and quality artisanal perfumery. We use only natural ingredients and we show the difference between what is available now as natural and what was available for comparison purpose. We supply (free) over 255 items to use in your work and hundreds more library and ancient odors to smell. The course covers everything from perfect Blending for therapy or perfume, to perfect Perfumery - building a unique and perfect scent combining your favorites and soon to become favorites odors, making bases and accords and learning and using many alcohols, tinctures and carriers. The Vocabulary of Odor® as developed by Jeanne Rose is used.

Each of the 4 sections includes a new and practical workbook as developed by Jeanne Rose from her 45 years of experience. We incorporate working as a group, in pairs, singly, and teach uses of laboratory equipment. Every day is different and unique; every day builds on what has been learned before. Every day from 9-5 ... \$2850 includes taxes and fees and everything you need. [Course book, textbook, Vocabulary of Odor®, scent blotters, containers, vials, colors, vocabulary charts and the use of 250 separate perfume ingredients].
